Docket No. 98N-1265

Food and Drug Administration

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I take natural progesterone and

estrogen - replacement therapy - before I learned of

Madison Pharmacy ^{in Washington} from my son-in-law who is ob/gyn -

I was taking the usual - ^{the} - provera and synthetic progestin -

Since I stopped the synthetic - ^{the} - fibroid tumors in my breast have

almost disappeared - I do not retain fluids as readily - I had

Fibromyalgia which has disappeared - as a result of natural

progesterone as opposed to the provera - Please don't take

this blessing away! If I can give you more

information I'll be glad to - I have done a great

deal of research. Margaret Steere
